

**SUPPLEMENTAL REISSUE APPLICATION DECLARATION BY
THE INVENTOR**

Docket Number (Optional)
1361040-2002.1

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,845,885, granted 12/08/1998 and for which a reissue patent is sought on the invention entitled

UNIVERSALLY POSITIONABLE MOUNTING DEVICE

the specification of which

☐ is attached hereto.

☒ was filed on December 7, 2000 as reissue application number 09/733,691
January 14, 2002, August 20, 2002, November 19, 2002,
May 25, 2004, December 20, 2004, March 29, 2006, April 17,
2006, September 14, 2006, October 5, 2007, November 19,
2009, and on even date with filing of this Supplemental

and was amended on Reissue Application Declaration
(if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

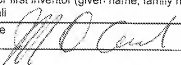

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

An error being corrected by the present reissue application is that the patentee claimed less than he had a right to claim in U.S. Patent No. 5,845,885 because all of the issued claims of the patent are directed to a mounting device and, thus, the patent fails to include a claim directed to an interlocking ball and socket joint. The interlocking ball and socket joint is a subcombination of the previously claimed mounting device (which is a combination of parts including, among other elements, the currently claimed interlocking ball and socket joint). Accordingly, the patent claims are too narrow to fully protect the disclosed invention. For example, claim 50 of the present reissue application is directed to an interlocking ball and socket joint which includes a coupling member and a bifurcated arm assembly. Claim 50 is different from the issued patent claims, in part, because claim 50 recites a coupling member and does not recite a base. In contrast, each of the claims of U.S. Patent No. 5,845,885 recites a first coupling member and a base. Thus, this is a broadening reissue because claim 50 does not recite a base.

(SUPPLEMENTAL REISSUE APPLICATION DECLARATION BY THE INVENTOR, page 2)		Docket Number (Optional) 1361040-2002.1
All errors corrected in this reissue application, including any errors not covered by the prior declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant.

WARNING:		
Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.		
I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.		
Full name of sole or first inventor (given name, family name) Jeffrey D. Carnevali		
Inventor's signature 	Date 05/21/12	
Residence Seattle, Washington	Citizenship US	
Mailing Address 1205 S. Orr Street, Seattle, Washington 98101		
Full name of second joint inventor (given name, family name)		
Inventor's signature	Date	
Residence	Citizenship
